Total	\$500,000					

Detailed Project Description and Justification:

The playing conditions at the Service High School Football field pose a significant safety risk for student athletes. The Anchorage School District included the project on the master unfunded needs list due to the playing conditions at Service. While the turf is installed at Service High School, the benefit of better, safer playing conditions will extend to all visiting teams and students from around the State.

The design phase of the project has been funded and the remaining funds are for the completion of the project.

Project Timeline:

Expenditures can begin in 2009.
